

**Proposition 13 Groundwater Storage Construction Grant
Awards 2000-2005**

Applicant	County	Project Description	Grant Amount	Project Status
Arvin Edison Water Storage District	Kern	Expansion of the Sycamore Spreading Works by 90 acres, expansion of the N1 balancing reservoir by 30 acres, and construction of four recovery extraction wells	\$2,000,000	Completed
Buena Vista Water Storage District	Kern	Construction of three new extraction wells and associated conveyance pipelines to deliver additional banked groundwater	\$500,000	Completed
Butte Water District	Butte	Construction of two production wells and implementation of a monitoring program to track changes in groundwater levels due to extraction and natural recharge	\$1,397,149	Completed
Cawelo Water District	Kern	Construction of diversion facilities from Poso Creek to Poso Reservoir for recharge	\$1,430,000	Completed
Clovis, City of	Fresno	Construction of four groundwater recharge basins on eight parcels	\$2,031,245	Completed
East Bay Municipal Water District	Alameda	Construction of three ASR wells and new treatment, blending, and transmission facilities and implementation of a monitoring program to track groundwater levels and subsidence in the East Bay Plain sub-basin aquifer system	\$2,000,000	Completed
Eastern Municipal Water District	San Bernardino	Construct 15 new recharge ponds and appurtenant facilities and implement improvements in the San Jacinto River channel	\$5,000,000	Completed

Fresno Irrigation District	Fresno	Construct 13 new recharge basins with diversion structures and delivery pipelines, eight recovery wells, five monitor wells, and canal delivery system improvements	\$4,615,072	Completed
Golden Hills Community Services District	Kern	Construction of a new extraction well and transmission pipeline to facilitate increased surface water storage at an existing recharge site	\$740,500	Completed
Goleta Water District	Santa Barbara	Provide for recharge of spill water from Lake Cachuma to the groundwater basin and modify existing wells to allow injection	\$1,802,019	Completed
Inland Empire Utilities Agency	San Bernardino	Construction of six well head treatment facilities for percolate, improvements to the Upland Recharge Basin, expansion of the Chino II Desalter and Phase III recycled water conveyance facilities	\$15,500,000	Completed
Kern County Water Agency	Kern	Construct a tie between the Cross Valley Canal (CVC) and the Friant-Kern Canal, install pump stations on the Friant-Kern Canal to convey water from the CVC to northern Kern County, and raise the lining of the CVC to reliably convey 500 cfs of water	\$23,000,000	Completed
Kern Delta Water District	Kern	Construction of six new wells, modification of two existing wells, and construction of approximately 660 acres of spreading basins along the Buena Vista Canal	\$5,177,950	Completed
Kern Water Bank Authority	Kern	Construction of 16 additional recovery wells and a conveyance pipeline to route water to the California Aqueduct, and construction of a lift station to convey water for recharge	\$3,375,000	Completed

Kings River Conservation District	Fresno	Construction of two recharge basins and three extraction wells	\$2,737,753	Completed
Los Angeles County Department of Public Works	Los Angeles	Construction of two inflatable dams on the San Gabriel River to capture local runoff for in-stream recharge and provide storage for downstream spreading	\$2,150,000	Completed
Los Angeles County Department of Public Works	Los Angeles	Rehabilitation improvements to Big Tujunga Dam to capture, detain, and recharge additional storm water in the San Fernando Basin	\$6,600,000	Completed
Lower Tule River Irrigation District	Kings/Tulare	Enhance surface water conveyance from the Tule River at North Canal to increase in-lieu and direct groundwater recharge	\$700,000	Completed
North Kern Water Storage District	Kern	Construction of a turnout from the Friant-Kern Canal and four extraction wells to be used with existing facilities to provide water banking services to neighboring agencies and maintain groundwater resources underlying North Kern	\$1,131,000	Completed
Orange County Water District	Orange	Construction of Advanced Water Treatment facilities, pumping stations and conveyance pipeline to existing recharge basins	\$30,000,000	Completed
Pajaro Valley Water Management Agency	Santa Cruz	Construction of a 22-mile pipeline, 17 supplemental wells along the pipeline, and a 26-mile coastal distribution system for delivery of water to coastal properties	\$16,250,444	Completed
Regional Water Authority	Sacramento/Placer	Expand surface water treatment plant capacity and improve water transmission system components for flow equalization and groundwater extraction wells	\$21,671,697	Completed

Stockton East Water District	San Joaquin	Construction of a surface water conveyance pipeline to existing and future recharge facilities and to deliver water that is recovered from groundwater storage using proposed and existing wells	\$3,700,630	Completed
Sutter Extension Water District	Sutter	Construction of two groundwater production wells, implementation of a recharge program, a monitoring program and a conjunctive use education program	\$1,510,897	Completed
United Water Conservation District	Ventura	Construction of a well field to manage groundwater storage in the Oxnard Forebay Basin	\$1,423,595	Completed
West Basin Municipal Water District	Los Angeles	Expansion and upgrade of the West Basin Water Recycling Plant to receive and treat more water and injection of the recycled water for the seawater intrusion barrier	\$9,406,269	Completed
Yuba County Water Agency	Yuba	Construction of a surface water delivery canal for use in lieu of groundwater pumping and two pumping plants	\$4,150,000	Completed
Total Groundwater Storage Construction Awards			\$170,001,220
